

AME Cast

Liquid Crystal Display (LCD)
Material Datasheet

High-speed builds suitable for dental purposes such as producing castable crowns, veneers, frames & more.

Measurement	Value
Shore Hardness	78D
Tensile Strength	-
Tensile Modulus	-
Flexural Strength	29.5 MPa
Flexural Modulus	1,682 MPa
Heat Deflection Temp.	-
Elongation Break	-

Actual values may vary depending on build conditions.
